

Accutrade Polska

Limited Company

Accutrade Polska Ltd. belongs to the international Group specializing in the distribution of batteries for the POWER segment, the so-called low and high traction.

We have extensive experience in cooperation with the FCM, AWP, GOLF CARS industries; ELECTRIC SCOOTERS and Leasure.

We have a permanent stock of batteries and chargers for cleaning and communal machines, mobile platforms, electric golf cart lifts, warehouse transport powered by monoblocks and sets of traction batteries.

Brands

Rolls

CHALLENGER

CHALLENGER

CHALLENGER

CHALLENGER – a brand of the Accutrade Group since 2009. From the beginning, it has been produced in the same production group. Covers the entire range of GEL, GEL EV, AGM, AGM EV, Flooded (wet) batteries;

SIAP

The company "S.I.A.P.", which was established in 1996 as a company with Italian capital, is a dynamically developing company.

We are Master Distributor of accumulators and traction batteries in wet tubular and gel technology from S.I.A.P

ROLLS

The logo for Rolls, featuring the word "Rolls" in a bold, red, cursive script font. The letters are thick and have a slight shadow effect, giving it a three-dimensional appearance. The 'R' is particularly large and stylized, with a long tail that loops under the 'o's.

Rolls product lines offer premium deep cycle batteries in a wide range of voltage and capacity options. The Rolls brand and distinctly red cases are well-recognized around the world and represent our longstanding commitment to deliver outstanding quality, dependability and support. Rolls flooded & sealed batteries are chosen by industry professionals and customers time and time again.

S.P.E.

The logo for S.P.E. Elettronica Industriale features the letters 'S.P.E.' in a large, blue, stylized font with a digital or pixelated appearance. To the right of 'S.P.E.', the words 'ELETTRONICA' and 'INDUSTRIALE' are stacked vertically in a smaller, blue, sans-serif font. The entire logo is framed by two horizontal red bars, one above and one below.

S.P.E. ELETTRONICA
INDUSTRIALE

S.P.E. Elettronica

Industriale manufactures on-board and stand-alone Smart battery chargers for Wet and Gel traction batteries, both Traditional and High Frequency, with fully programmable charging process.

With over **45 years of experience** and a proud tradition of quality and innovation,

All the products are planned, manufactured and packed in Italy, with specialized and advanced technologies.

TCE

The innovative technology applied to our products guarantees the best charge to optimize and increase the life of the battery and its performance.

Several years of experience in the research & development sector, cooperation with the largest manufacturers in the field of material handling, allow TCE to offer the best quality and the best choice for charging any type of battery.
